

CreditMaster[®]

Single-Source Access To All Three Bureaus

Reynolds and Reynolds[®] is partnered with CoreLogic Credco to provide CreditMaster[®], the industry's easy, one-stop access to credit reports from all three bureaus – Experian[®], TransUnion and Equifax[®]. CreditMaster is fully-integrated into the Reynolds ERA[®] and POWER systems, allowing you to streamline your F&I processes and close more deals.

Seamless Integration

With CreditMaster, there's no need to hassle with three different accounts, three different report formats, or three different bills every month. For multiple bureaus, CreditMaster automatically merges credit data into a single tradeline for easy analysis. And because we're integrated into the Reynolds ERA and POWER systems, you don't have to re-key information.

Data Security & Compliance

CoreLogic Credco abides by the FCRA, FACT Act, OFAC, the Safeguards Rule and other state, local and federal laws and regulations. And because we have on-site and off-site backup and disaster recovery capabilities, we have a proven systems uptime that ensures a seamless and uninterrupted transfer of the credit information you need.

Activity & Audit Reports

CreditMaster gives you access to a complete log of all credit report transactions by consumer and user. These Activity Reports make it easy to accurately monitor and track your credit inquiry history for up to 7 years. CreditMaster automatically includes Audit Reports that help you track successfully transmitted credit reports for audit purposes. They let you effectively monitor inquiries (pulled, viewed, deleted and printed) and help you ensure that sensitive consumer information is protected.

For more information on CreditMaster, contact a CoreLogic Credco sales associate at (800) 694-1414 or visit us online at www.CreditMasterServices.com.

FUEL YOUR
BUSINESS.
