## Red Flag Reporting: New Online Dashboard Now Available

While yet another delay in the enforcement of the Red Flags Rule may be frustrating for some, it could be great news for you if you've been waiting for better, more advanced data-driven solutions to help you comply by January 1, 2011.

Now there's **Red Flag Viewpoint**, an integrated online reporting dashboard that combines, summarizes and delivers easy-to-read reporting on Red Flags Rule compliance efforts for your dealership.

### Red Flag Viewpoint

Developed in collaboration with Compli and part of Credco's comprehensive Red Flag compliance suite, Red Flag Viewpoint is uniquely designed to help you meet the Red Flags Rule's requirement of regularly monitoring and updating your dealership's Identity Theft Prevention Program.

- Complements Credco's Red Flag Manager
- Helps meet Red Flags Rule monitoring requirement
- Multidimensional data analysis
- Exportable data for auditing and reporting

The new online tool lets you easily **monitor, analyze and report** on a wide range of customer data. You can drill down on metrics and reports for detailed analytics, or view customer data as broadly as needed. Reporting analytics can also be viewed either for an entire dealer group or as an individual dealership.
