Credit Advantage Information

Offered exclusively from **CoreLogic**, Credit Advantage goes beyond the credit report by providing the consumer demographic and lifestyle information you need to put your customers in the right vehicles – and maximize your profits!

Credit Advantage is powered by a database containing information on over 100 million U.S. households and over 200 million individuals. *The result?* You gain access to critical insight on every applicant – quickly and conveniently – so you can make fast, reliable sales and lender placement decisions.

Data sources for Credit Advantage include self-reported data from over 100 manufacturer's product registrations; public data; records of purchases made by consumer via catalogs, over the Internet and in retail stores catalogs; and modeled data used to predict information about consumers.

Credit Advantage features the following key data points:

CREDIT ADVANTAGE:

- 1. Match Index = 100
- 2. Est. Length of Residence = In the 3rd year
- 3. Est. Head of Household Income = \$40,000 - \$49,999
- 4. Propensity to Pay = Above average

- 1. Match Index:** Indicates the relative confidence of a match – the higher the score, the higher the confidence of the match.
- 2. Estimated Length of Residence:** Estimated length of time a household has been identified at the current address
- 3. Estimated Head of Household Income:** Sourced directly from self-reported sources, as well as modeled based on individual and household demographic data
- 4. Propensity to Pay:** The household's inclination or ability to pay as agreed. The model's performance is driven by demographic and lifestyle information.

**Included free for CoreLogic Red Flag Solution customers. Red Flag Solution includes credit reporting services, OFAC screening and BuyerID Index.*

Red Flag Compliance Information

Included FREE for CoreLogic Red Flag Solution customers, the Red Flag Compliance Information section features potential Red Flag indicators such as FACT Act alerts, discrepancies in identity information, consumer identity data alerts and possible OFAC matches.*

a. Warning: Displays an alert when Red Flags are detected.
